STANDARD GUARANTEE

of

American Shorthorn Breeders' Association

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such cases is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's Disease of the state or country into which they may be shipped.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

The above guarantee and terms shall constitute a contract between consignor and buyer of each lot. Neither the Illinois Shorthorn Breeders' Ass'n., the Sale Manager, nor the clerk of the sale assumes any liability, legal or otherwise.

Edellyn Hall-Mark stood fifth in that tremendous class of junior bull calves at the American Royal National Show. He was sired by a Perth first prize winner whose sons are really breeding in Scotland. His dam, a granddaughter of a Perth champion, was herself a Kansas State Sale champion and shared the top female honors at the June, 1948, sale at Merryvale Farms. This bull is really bred right and we think he is a magnificent calf and a great prospect for a sire.

The Better The Cows — The Better The Calves

Breeders of today are charged with the responsibility of maintaining a breed's gains, continually making the best better. Basis for greatest improvement comes through the sire. . . . but if progeny are to continue better than either sire or dam, a bull's influence must be enhanced by capable help from the female herd. Here are some topnotch Shorthorn matrons. Their deep, roomy bodies and wide, level backs lead in appreciation of the kind of calves produced year after year at Curtiss Candy Farms.
